

Host Business Guide

Wrap-Up Session

Workplace host wraps up the day, making the following points:

- The world of work is within reach for every student.
- The jobs that students will hold in the future will be as different as the ones seen here today.
- Each job is important to the success of the workplace.

Ask the students: "From what you saw today, what do you think are the overall goals of this workplace?" (The answers may include the following: to make a profit, to provide a good service, to help the community, etc.). The workplace host should remind the students what the real goals of the workplace are.

Summarizing the Findings

- ◆ Wrap up the discussion by summarizing the activity for the students:
- ◆ It is the combined skills of all the employees that allow the workplace to operate successfully.
- ◆ Every department is key to the overall success of the workplace.
- ◆ The departments work together to successfully meet the workplace's goals.

**"More Than Meets The Eye"* is a great activity to end the Job Shadow event. This activity is included in this booklet.
